

## Topic

### History

In History, children will learn about World War II. Children will identify and sequence key events in Britain during the second world war, and compare and contrast these with other key events in history. They will critically evaluate the resettlement of children during this time and consider how the roles of men and women in society have changed and developed as a consequence of the events of WW2. Children will look at how censorship and propaganda were used during the war and they will evaluate the actions of world leaders during this time and determine what the legacy of World War II was.

### Geography

In geography this term, children will learn about where our energy comes from. The children will develop an understanding about why energy sources are important, and the benefits and drawbacks of these different sources. Children will learn about energy is generated in the United States, how energy is distributed in certain areas, what the best ways to generate energy are and critically consider where energy sources should be used within the school setting.

### Art & Design

'Drawing: make my voice heard' is the next unit of learning in art. They will explore different art styles, using different tools to create symbolic and expressive drawings. Children will be encouraged to form their own opinions of art and convey meanings through their work.

### Design & Technology

In D&T, the children will learn all about Electrical systems creating a steady hand game. They will make and test a functioning circuit and assemble it within a case.

## What are We Learning in Year 6 during the Spring Term?

### Computing

During computing lessons this term, children will continue their learning exploring variables within games. They will also explore data information with an introduction to spreadsheets. They will look at formulas, modify spreadsheets and have a go at event planning and presenting data.

### PSHE/RSE

Dreams and Goals and Healthy Me are the two units of work covered this spring term in PSHE. The children will learn all about taking responsibility for their physical, emotional and mental health. They will learn about their dreams and goals and ways to keep motivated to achieve them.

### PE

In PE this term the children will be covering KS2 Fitness games, Dance and Badminton with Gregg. They will learn to compose and explore different dance styles through street dance and sport dances incorporating lifts and flights.

### Science

In Science we will continue to work as scientists; using our science skills to learn about living things and how they can be classified. We are looking microorganisms, plants and animals and how they are similar and different. Next, we will recognise that living things have evolved and what fossils are. We will research how animals and plants have adapted to their environments in different ways.

### Spanish

In Spanish this term, we will cover the following topics: 'En la cafeteria' and 'La clase.' The children will learn to order things to eat & drink using a wide range of vocabulary. They will also learn how say what they have or do not have in the classroom.

### Music

In music this term the children are continuing to explore music through pop art & discovering how rhythms can 'translate' into different instruments. They will also learn Baroque and perform a fugue and take part in a vocal improvisation task based upon a Baroque recitative.

### Religious Education

In RE, we will be learning all about the Qu'ran and the importance of it to Muslims. The children will learn about the revelation of the Qu'ran, how it has helped provide guidance to Muslims and they will also hear stories which help teach Muslims the importance of making the right decisions.
