

Summer 2018

Eco Celebration at City Hall

Miss Eames had a hard job choosing just 8 children from our huge Eco Club to take to the Eco Awards at City Hall. We decided to showcase our #500BeesBugsButterflies Project that linked with Pollination and Learning Through Landscapes.

Sandfield children went on the bus to the venue – which took a lot longer but was a lot cheaper and used sustainable transport. So we all agreed it was a good thing to do.

We made a special effort of dressing up as Pollinators, we also had our Pollinator hats and lots to talk about.

Our Year 6 children made it look easy as they put up the display and started talking to all the judges. The room was packed with 16 other schools and over 30 judges. We really enjoyed looking at everyone's projects. We were delighted when it was announced we were the Judge's favourites to win Leicester's Eco School of the Year

Sandfield Close Primary School, Leicester
